

EDMONTON FURNACE QUOTES

Lead sheet · furnace replacement and no-heat requests · Edmonton, Alberta

What a request contains, when it is billable, and what it costs.

\$45 / qualified lead

or \$400 / month, your area exclusively
first three qualified leads free

WHAT A LEAD CONTAINS

Name	the homeowner's name, as they typed it
Callback number	phone, checked for a full 10 digits before it is passed on
Email	if they left one; the phone is the channel that matters
Postal code	full code plus the forward sortation area, so you can see the drive first
Job	replacement / no heat — urgent / major repair / tune-up / thermostat or ductwork / AC
Timing	as soon as possible / within a week / this month / pricing for now
Description	what the furnace is doing, in the homeowner's own words, make and rough age when known
Consent + time	consent box ticked, with the date and time recorded in Edmonton time

A REQUEST IS BILLABLE ONLY WHEN ALL FOUR ARE TRUE

- 1. The postal code is in your coverage area**
Edmonton T5A-T6X, or the metro codes T7X, T8A, T8B, T8N, T9E. Anything outside is not billed.
- 2. The job is one you actually do**
Furnace replacement, no-heat, or a major furnace repair. Tune-ups and AC-only calls are filtered out; if one slips through it is free.
- 3. The homeowner engages**
They answer your call or reply to you within 48 hours of receiving it.
- 4. You claim it inside the window**
Six hours on a shared request; yours alone on the retainer. No claim, no charge.

THE TWO WAYS TO BUY

START HERE

\$45 per qualified lead

Pay only for leads that pass the four rules.
First three qualified leads free.
Shared with at most one other contractor.
Invoiced monthly by e-transfer, after delivery.
Cancel by one email. No notice period.

EXCLUSIVE AREA

\$400 per month, your area only

Exclusive: every qualifying request in your cluster comes to you alone, no other contractor.
A cluster is roughly 3-5 forward sortation areas.
A month with zero requests is free.
Month-to-month. Cancel before the month starts.

How it reaches you

A text and an email to the number and address you give us, the moment a request lands. You get six hours to claim it; unclaimed requests move to the next contractor on the list.

What we do not do

No bought lists and no scraped numbers. Every request comes from the homeowner filling in the form. No homeowner detail is sold or handed to anyone but the contractors quoting the job. No reviews or testimonials are written for this service.

HOW TO START

1. Send one email

Business name, Alberta trade licence number, the postal codes you cover, and how you want requests delivered.

2. We list your codes

You go on the list for those areas. On the retainer, nobody else gets your cluster at all.

3. Requests arrive

Text and email the moment one lands. Six-hour claim window, then it moves on to the next contractor.

Max Hemmerich · maxhemmerich@gmail.com · Edmonton, Alberta

Ask for the next batch, or ask what requests have come through — the count is real and both of us can check it.

Requests are gathered with the homeowner's consent and passed on only to quote the work. Contractors quoting are expected to hold a valid Alberta trade licence for that work.
